HVC Presentation: Possible Questions and Answers

Human Values and Computing | Purva Rane and Mansi Patil

Topic 1: Professional

Q1. Who is a professional?

English: A person who uses knowledge, skills, values and good behaviour to do work responsibly.

Marathi: Professional mhanje asa manus je knowledge, skills, values aani changle behaviour vaparun kaam responsibly karto.

Q2. Why is honesty important for a professional?

English: People trust a professional's work and words. If they lie or hide mistakes, the trust breaks and the problem grows bigger.

Marathi: Lokanna professional var trust asto. Jar tyane lie kela kinva mistake lapvli, tar trust tutto aani problem motha hoto.

Q3. What is the difference between values and skills?

English: Skills tell us HOW to do a job (like coding). Values tell us what is RIGHT to do (like honesty). A good professional needs both.

Marathi: Skills mhanje kaam kase karaycha (jase coding). Values mhanje kay right aahe (jase honesty). Changlya professional kade donhi pahijet.

Topic 2: Needs of the Self and Body

Q4. What is the difference between the needs of the Self and the needs of the Body?

English: The Body needs physical things like food, rest, a comfortable workplace and salary (Suvidha). The Self needs feelings like happiness, respect, trust and peace (Sukh).

Marathi: Body la physical goshti lagtat, jase food, rest, comfortable workplace, salary (Suvidha). Self la feelings lagtat, jase happiness, respect, trust, peace (Sukh).

Q5. Can a high salary alone make a person happy?

English: No. Salary fulfils the needs of the Body only. For real happiness the Self also needs respect, good relationships and job satisfaction.

Marathi: Nahi. Salary fakt Body chya needs purn karte. Khari happiness sathi Self la respect, changle relationships aani job satisfaction pan lagte.

Topic 3: Harmony in the Self

Q6. What is Harmony in the Self and how can we achieve it?

English: It means our desires, thoughts, expectations and actions are in line, so we feel peace and clarity. We achieve it by understanding ourselves, thinking rightly and controlling unnecessary desires.

Marathi: Aaple desires, thoughts aani actions match asne mhanje harmony in the Self, tyane peace aani clarity milte. Te milvayla aaplyala neet samjane, right thinking karne aani gairjaruri desires var control thevne.

Topic 4: Harmony with the Body

Q7. What is the responsibility of the Self towards the Body?

English: The Self should take proper care of the Body: healthy food, enough sleep and regular exercise. The Body is like an instrument that helps the Self do its work.

Marathi: Self ne Body chi kaalji ghyavi: healthy food, purn sleep aani regular exercise. Body mhanje ek instrument aahe je Self la kaam karayla madat karte.

Q8. Why is a healthy body important in a job?

English: A healthy body gives energy and focus, so we make fewer mistakes and work better.

Marathi: Healthy body mule energy aani focus rahto, mhanun mistakes kami hotat aani kaam changle hote.

Topic 5: Ethical Frameworks

Q9. What are ethical frameworks?

English: Guidelines or principles that help us decide what is right and wrong in personal and professional life. Examples: honesty, responsibility, respect.

Marathi: Guidelines kinva principles je aaplyala right-wrong tharvayla madat kartat. Jase: honesty, responsibility, respect.

Q10. What is the difference between ethics and morals?

English: Ethics are shared rules or guidelines of a profession or society. Morals are a person's own beliefs about right and wrong.

Marathi: Ethics mhanje profession kinva society che rules. Morals mhanje vyaktichya swatachya right-wrong baddal che vichar.

Q11. Why do we need ethics at the workplace?

English: Ethics build trust, fairness and respect among colleagues and customers, and help avoid wrong decisions.

Marathi: Ethics mule colleagues aani customers madhe trust, fairness aani respect vadhto, aani chukiche decisions taltat.

Topic 6: Programme for Ethical Conduct

Q12. What are the steps of the Programme for Ethical Conduct? Give an example.

English: Step 1: Right Understanding, identify the ethical issue. Step 2: Identify the Problem and who will be affected. Step 3: Consider Human Values like honesty, respect, trust and fairness. Example: a developer finds a bug that can leak user data. He understands it is wrong to hide it, sees that users will be affected, and reports it to the team out of honesty and responsibility.

Marathi: Step 1: Right Understanding, ethical issue olkha. Step 2: Problem olkha aani kon affect honar te samja. Step 3: Honesty, respect, trust, fairness sarkhe values vapra. Example: ek developer la bug disto jyane user cha data leak hou shakto. Te lapvne chukiche aahe he to samjto, kon affect honar te pahto, aani honesty aani responsibility mule team la sangto.

Subject: Human Values and Computing

Q13. How are human values related to computing?

English: Computing professionals handle data, software and technology that affect many people. So they need honesty, responsibility and respect, for example keeping user data safe and not giving false information.

Marathi: Computing professionals data, software aani technology handle kartat jyacha khup lokanvar parinam hoto. Mhanun tyanna honesty, responsibility aani respect lagtat, jase user cha data safe thevne aani chukichi information na denes.

Q14. What did you learn from this topic and how will you use it?

English: A good professional needs skills and values. I will take care of myself and my body, be honest at work and follow ethics in my decisions.

Marathi: Changlya professional kade skills aani values donhi pahijet. Mi swatachi aani body chi kaalji ghein, kaamat honest rahein aani decisions madhe ethics follow karen.

If you do not know the answer: say calmly "I will check this and tell you." Purva and Mansi can also help each other: "Mansi, would you like to add something?"
Speak in your own words, do not memorise the answers word for word.
