Purva Rane (Roll 52) and Mansi Patil (Roll 48) | Human Values and Professional Ethics

Part 1: English Script

Purva: Good morning everyone. I am Purva Rane, Roll No. 52.

Mansi: Good morning. I am Mansi Patil, Roll No. 48.

Purva: Today we will present our HVC topic: Human Values and Professional Ethics. I will cover the first three topics, and Mansi will cover the next three.

Topic 1: Understanding the Human Being as a Professional Purva

Purva: A professional is a person who uses knowledge, skills, values and good behaviour to work responsibly. Three key points: **Right Understanding** (know right from wrong before deciding), **Honesty** (do not cheat, lie or hide mistakes), and **Responsibility** (finish work on time and own your actions).

Topic 2: Needs of the Self vs. Needs of the Body Purva

Purva: Every person has two types of needs. **Needs of the Self**: happiness, respect and trust, job satisfaction, good relationships, confidence and growth. **Needs of the Body**: food and water, rest and sleep, comfortable workplace, health and exercise, suitable salary. In short, the Body needs physical things, and the Self needs feelings like peace and trust.

Topic 3: Harmony in the Self Purva

Purva: Harmony in the Self means peace, clarity and balance within us, when our desires, thoughts and actions are aligned. Three points: **Understand Yourself**, **Right Thinking**, and **Control Over Desires**. Now I request Mansi to continue. Thank you.

Mansi: Thank you, Purva.

Topic 4: Harmony with the Body Mansi

Mansi: This means understanding our body's needs and taking care of it. Three points: **Proper Food** (healthy, balanced), **Adequate Rest** (enough sleep), and **Regular Exercise** (for fitness and strength).

Topic 5: Introduction to Ethical Frameworks Mansi

Mansi: Ethical frameworks are guidelines that help us decide what is right and wrong in personal and professional life. Three principles: **Honesty**, **Responsibility**, and **Respect** for colleagues, customers and everyone.

Topic 6: The Programme for Ethical Conduct Mansi

Mansi: It is a systematic approach that helps professionals make right decisions at work. Three steps: **Right Understanding** (identify the ethical issue), **Identify the Problem** (who will be affected), and **Consider Human Values** (honesty, respect, trust, fairness, responsibility).

Purva: To conclude, a good professional needs both skills and values.

Mansi: When we take care of our Self and Body and follow ethics, we can be successful and happy.

Both: Thank you, everyone. Any questions?
